

- 1 D+H Mechatronic (english)**
- 1.1 Expansion Modules**
- 1.1.1 Closing edge safety module - SSM 45**

**Entrapment protection in conjunction with D+H 24 V DC drives
24 V DC, max. 2 contact tubes**

Performance features:

For securing the main and side closing edges of a window in conjunction with (a maximum of 2) contact tubes;

Automatic reversing mode;

Burglary protection, automatic deactivation of the safety edge after 3 min;

Cable monitoring for short circuit and recess;

Installing in a junction box, for example (not included);

Technical data:

Power supply: 24 V DC (from driving line)

Switching capacity: max. 5 A

Terminal resistor: 5.6 kOhm

Wire break triggering: 14 kOhm \pm 100 Ohm (e.g. parallel resistance 1.6 kOhm)

Dimensions (WxHxD): 48 x 50 x 23 mm

Scope of supply:

Module without contact tubes (on-site), instruction for use

Brand: D+H Mechatronic AG

Type: SSM 45
